

## *Haskap Days Extravaganza*

***July 19, 20, 21, 22 2017. FOUR DAYS OF HASKAP!!! Attend part or all. Locations will be at various places at the U of SK campus. Registration is being handled by Haskap Canada at [www.haskap.ca/haskap-days-2017/](http://www.haskap.ca/haskap-days-2017/) More details are at that site.***

***July 19: Haskap school by Bob Bors. 4 hours all about haskap varieties, growing, processing, etc.***

***July 20: Haskap tour of U of SK breeding program. This is the annual tour which visits the 8 fields (16 acres?) of Haskap. The U of SK has the worlds largest Haskap breeding program and is likely the most diverse collection of germplasm. Each year new fields are planted so one can see haskap of all ages. Mechanical harvesting of haskap will be demonstrated.***

***July 21: Canada-wide Haskap Research Symposium. Researchers and extension agents from across Canada (and possibly other countries) will be presenting their research and observations. This is the first time for such a symposium, which is likely to occur annually or biannually in various locations across Canada. Growers are invited to attend and researchers are encouraged to become presenters. More details will follow in January and February. If you are an interested researcher contact Bob Bors at [bob.bors@usask.ca](mailto:bob.bors@usask.ca)***

***July 22: Haskap Canada tour of Haskap Farms. This tour will involve visiting farms growing and processing Haskap. Starting point will be at the U of SK campus. If enough people are interested we may rent a bus, and/or could car pool. This event will be arranged and run by Haskap Canada [www.haskap.ca](http://www.haskap.ca)***
